September Chairman's Report

Just after we produced the last newsletter, we were off to the north of England to take part in our first rally of the year.

The Tyneside Stages Rally.

With the recce not starting until 3.30 we were able to drive up on the Saturday morning. Christine and I left the house early at around 6.00am to start our run up the A17 onto the A1 and onwards to meet up with Julian and Adrian at Otterburn Mill.

It was a quite drive up with no problems, just a comfort break at the Wetherby service area.

I always hate taking the car through the scrutineering process, but I should not have really worried as everything was ok this time.

Our recce run through the stages did not start until 4.30ish and it was soon clear that there were a couple of stages which I could not remember. There was a short 2.5 mile stage that was very tight and twisty with a wooden bridge about halfway through, which was the downfall of a few cars on the second competitive run through. Which meant the stage was cancelled (and the next one) and we were not allowed to drive through and were turned around to retrace our steps to avoid going past the scene of the problem.

Sorry back to the recce, we drove most of the stages in sections jumping from one stage to another piecing parts of stage pace notes together to form the whole.

Christine and Adrian became tourists for a few hours while Julian and I did the recce, which seemed to go quite well.

With everything sorted for the morning we were off to the hotel to try to relax ready for the early start.

We left the hotel at about 7.30 to go and pick up the rally car and van from Otterburn village.

Our start time was 9.31, it was overcast but we hoped it would not rain as we were on slicks and would be away from service for at least 90 minutes or more as we had 3 stages to do.

I have got to say I was very slow on these stages, but in my defence it is the first rally we have done in 10 months. Stage one was dry, even so there were 3 cars off the road two facing the wrong way which did not inspire my confidence. The second stage was quite wet with a wooden bridge half was through which was the downfall of several competitors when the stage was visited on the second loop.

Stage Seven, it was at this point I seemed to wake up, the roads / stage flowed quite well and my approach was to start to push a bit

and try to brake a bit later and to get onto the throttle earlier and it worked. The car really felt that it was flying, our times were still not that good but it felt good.

The next stages were very quick and passed with no mishaps. The last two were over 12 miles long which is good practice for the 23 miler on mull (the last stage of the event).

The rally finished quite late and we were not on the road home until 6.30, with over a 300 mile drive home it would be an early morning finish to the day.

I know it was a long way to go for a rally but we would not be able to test the car on any roads in this region which are anything like these they are a real challenge. Over half of the entries retired.

My thanks go to Christine and Adrian for their service, and to Julian for being on the notes and in the right place all day.

What is next for us? We head north again for another crack at the Tour of Mull, 160 competitive miles over two nights and a day shift. You can follow the rally on the web pages and if you cannot sleep it is on the radio (I will check were you can find it)

Of course we will be busy with other club matters and events just two are listed below but there are others, check out the web pages.

Please do not forget these up and coming events

Sept 7th (Saturday) Auto solo / Auto test

The next round of our series this event is at a new venue in the Cambridge Huntingdon area. I know it is a long drive but it should be worth it

Sept 22nd Woodbridge Stages Rally,

For this one we have been asked to look after an area where there are changes to be made between stages as well as a split and merge. We will need at least 10 of us to cover the area; Christine's kitchen will be on line with tea and coffee as required. If you can help with these or other events please email me to let me know, yes or no.

Phone 01502 716280

Email cjnewson32@yahoo.co.uk

The bank holiday weekend saw Christine and I charging off to Wales again for the **Mewla Rally**, this year there was a different twist to the trip.

Normally we would be there to take part in the event in our rally car. This event has had a number of problems in the past with bomb scares, a rave and accidents disrupting the whole event. The very experienced organising team have always coped with these problems and run one of the best events in the country.

Christine and I seem to know quite a lot of the organising team, and it is because of this we had a phone call on the Thursday night of the natter and noggin asking what we were doing on the rally weekend. When I said we were going to be

at Clive and Linda's for the weekend the voice on the other end said ahh good, can you meet up with us at the Drovers Arms on the Epynt ranges on Saturday Morning as we could do with your help!!

We said ok (of course)!!!

What had I let us in for again?

Christine had to work late on Friday afternoon / evening so we did not leave until 6.45 ish, so we would not be in Clyro on the Welsh border until nearly midnight, another long day. The trip was quite good with no hold ups on a bank holiday Friday evening.

Saturday morning dawned and we were on the road to the ranges to meet up at 10am. Greeted by Brian Jones joint clerk of the course, who said he was pleased to see us, wait there we have a job for you!!

Our job was to escort one of the recce convoys through the range, not wanting all the responsibility for leading the convoy we went for tail end Charlie. This was the first time Christine had been through the Epynt stages after all the trips we have made to Wales.

The convoy moved through stages quite quickly which is very good for reading the notes as you would when you do the rally, but hard for us to keep up in Christine's diesel 308 (but it was fun).

It was about this time I broke the news to Christine that it was going to be another early start to be up on the ranges at 7.15am latest. For us it meant 5.20 alarm call, so we

could do the 35 miles in time. On arrival at Dixies we signed on, and as normal now a days a few goodies to say thank you for marshalling.

We were able to say where we wanted to marshal and I knew where after the recce yesterday. This was on the long stage which was used 5 times, with just one change of stage furniture for the change of direction.

Our point is called Quarry Bridge which we have driven loads of times. This year they added bale chicanes to slow the cars through the stage. On the first three times through there were no real worries on how the drivers attacked the corner and bales, but when they came from the other direction it was quite dangerous. The cars were pushed out towards a container and near the river; any small mistakes would be punished with a big accident. I should not have worried as there were only 3 or 4 who looked that they might have been an accident.

There were a couple of incidents on the stages of cars rolling, but no one was hurt.

More worrying there was an accident in the service area; a car was unsupported on axle stands. It slipped off the jack and fell onto the head and arm of the mechanic, he was trapped. He has a broken arm and has part of his ear chopped in the accident. It stopped the rally for a time and the air ambulance had to be called out. Please remember not go under the car until it is supported on axle stands or at least put the tyres and wheels under the car so it does not reach the floor with you under it.

The last thing for this month is to tell you that we have secured a venue for our annual dinner, prize giving and dance, this year we are going to the

Lenwade House Hotel

It's just off the Norwich Fakenham Road and is on Saturday 19th October.

You will find the booking form towards the back of this newsletter please fill it in and send it in as soon as possible.

Details of the venue can be found on the following web pages <http://www.lenwadehouse.co.uk/>

8 for an 8:30 start

2013 Midsummer Vintage & Classic Car Run

(should have appeared last month but went missing due to a senior editorial moment)

May I, through the wonderful medium of "Spotlight" express my thanks, not only to the Directors, committee & organisers of the Midsummer Classic, for all their hard work, in making the event so enjoyable, (despite the rain). but also a very stout, brave gentleman, in the shape of Peter Morris, who gave up his day of rest, to read the road book for me.

Finally: food for thought. Why not a Mid Winter Classic?? Using a tiny bit of the same route (say 20 miles, starting at 10.00 & finishing at 14.00), the finish being at the Model Shop & cafe at Snetterton. A bravery award to those entering with a open top vehicle!! Just an idea!!

Paul Doodson

The 2014 Touareg Trail Endurance Classic Rally Dakar Challenge

Date: 20th Sept to 10th October 2014 ("All dates and details etc. as yet to be finalised")

Thru your magazine I would like to advertise for a Co Driver-Navigator-Mechanic for the above event, I have secured sufficient funds for the car + its modification, a 2CV (picture attached is for reference only but the car shown has competed on the event previously but is not the car we will be using) The successful applicant will be required to have sufficient funds available as his/her payment towards the entry and running costs approx £6500-£7500.

Previous rally experience would be an advantage ie, driving, navigation & mechanical ability but not essential. But this will be a hands on experience thru Morocco into the Sahara desert and south in to Africa approx. 3000+ miles.(full details and route etc. as yet to be confirmed). Any interested Nutters (sorry I mean Applicants) can contact me: Richard Adams, Tel :01953 881004 (answer machine if not at home).

Hopefully I can make this happen and would be pleased to keep the SCCON magazine posted on our progress during the preparation stage of car building and the rally itself.

For my part I have over 50 years experience in Building,Driving and Running Race Cars and Bikes.

Richard Adams

Wales Rally GB

14th – 17th November

Is there any interest in registering and marshalling as a team from the club

Road Rallying August Round Up

Another quiet month

**Breidden Road Rally
24th / 25th August
Welsh Border Car Club
Maps 125, 126 & 136
With Hugh in his MG
DNF (well didn't really start)**

Sadly rallying has its ups and downs, this turned out to be a major example of the latter – not quite as bad as the trip up to North Yorkshire when the head gasket went in the queue for scrutineering – but pretty close.

All the warning signs were there but we ignored them and paid the price! I'll just whizz through the lead up to the event. Saturday morning turned up at Hugh's for an 11am start to find no tow car, no trailer and the MG parked up with all its opening bits open (oh yes and no Hugh!). In fact Hugh was out 'fixing' the trailer, somehow this 'fixing' involved breaking the towing ball off the tow car – so no trailer. Now, what would your decision be at this point – option 1: drive the MG 200 miles to Welshpool, followed by 110 miles of prime Welsh rally tracks, followed by the 200 mile trip back to Fakenham or option 2: go to the pub? Eventually set off and approx. 2 miles down the road Hugh's proud demonstration of my fixed electric window ended in tears as it was just about as 'fixed' as the trailer! In the window's defence the failure may or may not have been related to the loom catching fire, but that's probably another story. Fakenham Autoelectrics was the next port of call followed by a fun packed Bank Holiday Saturday trip eastwards to the Rover Spares Norfolk

emporium, a big thank you to Darren and his customer for crawling about in the mud and fitting a new fuse. It was now 2pm. I think the rest of the trip to Welshpool was fairly uneventful and we arrived at scrutineering at 6:30.

One of the joys of Welsh Road Rallying is the requirement to provide a marshal. We were very lucky to have the services of club members Gordon & George Shipley, fortunately they had made their own way so weren't inconvenienced by our delays. Procedure at signing on is to sign on your marshal and then sign on yourselves as normal. Gordon & George were affected by our late arrival as nearly all the decent marshalling spots had already been allocated but after a bit of a chat with the Chief Marshal they were given one of the later PCs (on the penultimate section as it turned out).

The format of the event looked quite good. The start venue was a Wood Yard owned by Mick Jones (a 'well known' Welsh rally driver) and it included a test track. The idea was do the test, two hours pre-plot, do the test again and then do the road rally. The majority of the test was on the side of a valley with the spectators / marshals parked up on the other side of the valley giving everyone a chance to watch some action before disappearing into the night.

Hugh walked the test (target time 3 mins making it between one and 2 miles) and reported that there was a little bit of grass in the middle but 99% graded track. Got most of the plotting done but was

distracted by a tricky bit at around ¾ point so left the rest for petrol.

First run at the test was a disaster as we got stuck on the 'little bit of grass', stalled and only just got going before car 48 arrived. Second run at the test wasn't quite as big a disaster but we had to run on the same minute as car 48 and I persuaded Hugh that it was only fair to let them go first, we got stuck on the 'little bit of grass' again, stalled again but this time the car restarted.

Off to SS2 (start of the first section), the section started on a 30 right followed by a 50m straight into a 90 left – I was amazed at the amount of rubber left by 47 cars as they locked up for 20m of the 50m straight. All went well for 8 minutes until a hairpin right into a PC, there was a big bang and puncture noises. Limped to the end of the section, changed the wheel, set off again but still puncture noises, a closer look revealed a flappy wheel and that was it.

How did we get home, Gordon & George gave us a lift, what about the car, well again that's a story for another day.

PS The MG has moved out of intensive care and is now well on the road to recovery from a broken engine cross member, broken gearbox cross member and missing track control arm.

2013 Clubmans Championship

For 2013 the majority of the Championship qualifying rounds will be organised by other clubs and the calendar will be fairly fluid.

The qualifying rounds will be those in the 2013 Eastern Trials Challenge, 2013 Anglian AutoSOLO Challenge and 2013 / 2014 Eastern Trials Challenge (first 4 rounds) plus the SCCoN Production Car Autotest.

A list of qualifying events will be shown here and on the website.

Dates and organisers WILL change.

BEST 8 scores from any qualifying events to count towards the Championship
